

Design Technology exam-KS3

Year 8 Revision

Students choose 2 out of 3 areas to answer plus a design question. You should use the booklets handed back to you at the end of each area to help revise.

Resistant Materials- Students designed and made a steady hand game using electronic components, plastic and timber. They need to know the key electronic components, safety considerations and the name of the tools and equipment used in lessons

Graphic Products-Students learnt about graphic techniques and packaging. They need to know about the software used, how to create nets and the graphical terms used in packaging from lessons.

Food- Students learnt about healthy eating and the correct equipment to use when cooking. Students will need to know about what healthy eating is and why it is important. They will also need to revise bread making ingredients, safety and equipment used in lessons.

Design question.

Students will need to revise the design process which has been used in all areas of Design Technology. They will then be asked to design and develop a product using either ingredients, resistant materials or graphic materials based on a theme.
