Thursday 7th September

Bounce!

Dear Parents/Carers,

We hope you and your child have had a lovely time over the holidays. We have been really impressed with the many adventurous Summer bags that we have already received.

Our morning timetable will focus on Literacy and Numeracy, which will be providing rich and varied lesson content for your child. The afternoon learning will include our topic, 'Bounce'. In addition on other days, there will be dedicated Science, Computing, R.E. and Personal Health, Social and Economic Education lessons.

In our new topic, we are learning all about healthy lifestyles including maintaining healthy diets and the effect of exercise on our bodies. During this term we are fortunate to have a few educational visits and workshops planned that will complement our learning. Please look out for further information on these in the coming weeks.

As you can see, we have a very exciting and busy term planned and we would love for our topic learning to continue at home. Over the next few weeks you could further support your child by:

- Sharing a new active game or sport.
- Explore new ways of moving.
- Set yourself a challenge (EG. Walk or bike to school at least twice a week- don't forget your helmet)
- Share a healthy meal together (Take pictures for your teacher)
- Plan your very own exercise routine to share.

Any work your child does at home please bring into school for show and tell. We would love to see what they have been learning about and to be able to give away lots of Disney Cards! Please note, however, that when researching via the internet, your child is supervised at all times to ensure that content viewed is age appropriate.

Please remember your child needs to have a named water bottle in the classroom for drinks of water only. Children do get thirsty during the day, especially in the Summer Term so a water bottle is essential.

If you wish any further information, or perhaps would like to help in the classroom, please do not hesitate to contact us.

Yours faithfully,

Mr Mitchell and Miss Appleyard.
Apollo and Discovery teachers.
